Program: Call for Investigator-Initiated Research Proposals for intermediate extramural grants - 2025	
Type of Institute *	Government/Public funded i... ▼
Are you currently under regular employment in Medical Institutes, Research Institutes, Universities, Colleges, recognized Research & Development laboratories, Government and semi-government organizations, and NGOs. *	Yes ▼
Call for proposal (Advertisement) *	Call for Investigator-Initiated Research Proposals for intermediate extramural grants - 2025 ▼
Priority Diseases *	Non-Communicable Diseases ▼
Conditions *	Eye condition ▼
Full name of Principal Investigator (PI)	Prof Testing A
Designation	ADDITIONAL DIRECTOR
Nature of Employment	Permanent
Gender	Other
Date of Superannuation of Principal Investigator (PI)	12-12-2020 🗓
Title of the proposed research (up to 25 words) * <small>should be specific, concise and yet sufficiently descriptive and informative.</small>	Testing1
Summary (up to 250 words) * <small>A structured summary should contain the following subheadings: Rationale/ gaps in existing knowledge, Novelty, Objectives, Methods, and Expected outcome.</small>	Testing 2

Keywords: <small>Six keywords separated by comma which best describe your project may be provided.</small>	Test
Abbreviations: <small>Only standard abbreviations should be used in the text. List of abbreviations maximum of ten may be given as a list.</small>	Test
Problem Statement (up to 500 words) * <small>State the currently available information to present the problem adequately.</small>	Test
Rationale of the study (up to 500 words) * <small>Mention how the research question addresses the critical barrier(s) in scientific knowledge, technical capability, and/or programmatic/clinical/lab practice and its relevance to local, national and international context.</small>	Test
Hypothesis/ Research question (up to 100 words) * <small>Please provide details in PICO/PECO format as applicable</small>	Test
Implementation strategy and milestones chart <small>GANTT/ PERT chart to be included in jpg/jpeg/png format fill size 1 MB max.</small>	<div style="border: 1px solid #ccc; padding: 2px;"> Choose File 26112024_F1_1176928629.jpeg </div> View uploaded file
Expected outcome/ Deliverables from the project i.e, what will be known at the end, if the project achieves all the stated objectives. (up to 100 words) *	Test
Immediate next steps following the end of the project (upto 100 words) *	Test
Whether the study is going to generate new intellectual property. Please provide details (up to 1000 words) *	Test
References in (AMA style) *	Test

Preliminary work done by the PI including the source of funding * Proof of concept (if any)	Test
Skill and experience of the research team: Highlight only salient points (along with 5 relevant publications) that provides confidence to reviewers that team can implement the project with quality. *	There are several mass communication theories that try to explain various influences as well as dynamics surrounding the diverse types of mass media and their effects on the public. The cultivation theory developed by George Gerbner attempts to identify the manipulation of
Institutional Support/ Facilities: * Share a brief note on inter-departmental or inter-institutional collaboration needed for study implementation. Do mention the role and responsibility of the PI and Co-PIs.	There are several mass communication theories that try to explain various influences as well as dynamics surrounding the diverse types of mass media and their effects on the public. The cultivation theory developed by George Gerbner attempts to identify the manipulation of
Laboratory facilities (in-vitro/ in-silico): * Mention the institutional resources (such as animal house, instruments/ equipment etc.) available for use in the proposed project for participating institutes.	There are several mass communication theories that try to explain various influences as well as dynamics surrounding the diverse types of mass media and their effects on the public. The cultivation theory developed by George Gerbner attempts to identify the manipulation of
Duration in months *	16
Conflict of Interest Declaration If(Any) * PI should include a statement for conflict of declaration (if any)	There are several mass communication theories that try to explain various influences as well as dynamics surrounding the diverse types of mass media and their effects on the public. The cultivation theory developed by George Gerbner attempts to identify the manipulation of

Declaration

I hereby declare that the entries in this form and the additional particulars, if any, furnished herewith are true to the best of my knowledge and belief. I understand that in the event of my information being found false or incorrect at any stage, my project/proposal shall be liable to cancellation / termination without notice or any compensation in lieu thereof.

I hereby certify that the research proposal I have submitted to ICMR, New Delhi, for potential funding is entirely my original idea and has not been copied or replicated from any other source. Furthermore, I confirm that this proposal has undergone scrutiny using a standard plagiarism detection tool, verifying its originality and confirming that its contents have not been directly taken from any other sources. Additionally, I declare that there have been no established or pending plagiarism charges against me in the last five years.
In the event that the funding agency identifies any form of plagiarism or inconsistencies in the aforementioned proposal, I acknowledge and agree to comply with any actions deemed necessary by ICMR. I take full responsibility for any such discrepancies and will adhere to the consequences as required.
